RECEIVED  
DEC 23 1982

DIVISION OF  
OIL, GAS & MINING

Dear Mr. Tetting:

Re: Coal Exploration Program - 1982  
Kaiser Steel Corporation, State Lease ML-2820  
Emery County, Utah

Proposed exploration activities on the subject lease consisted of drilling two core holes and collecting high resolution seismic data along a segment of seismic line B parallel to the Little Park road.

The seismic work was completed in September.

Proposed drill holes, numbers 19 and 21, were not drilled. Access roads and drill sites were not prepared; however, these proposed sites may be incorporated in future exploration programs.

Reclamation of the seismic line along the road consisted of cleanup of the physical paraphernalia used in performing the required work.

If you have any questions, please contact Bob Turner or me at our Oakland office.

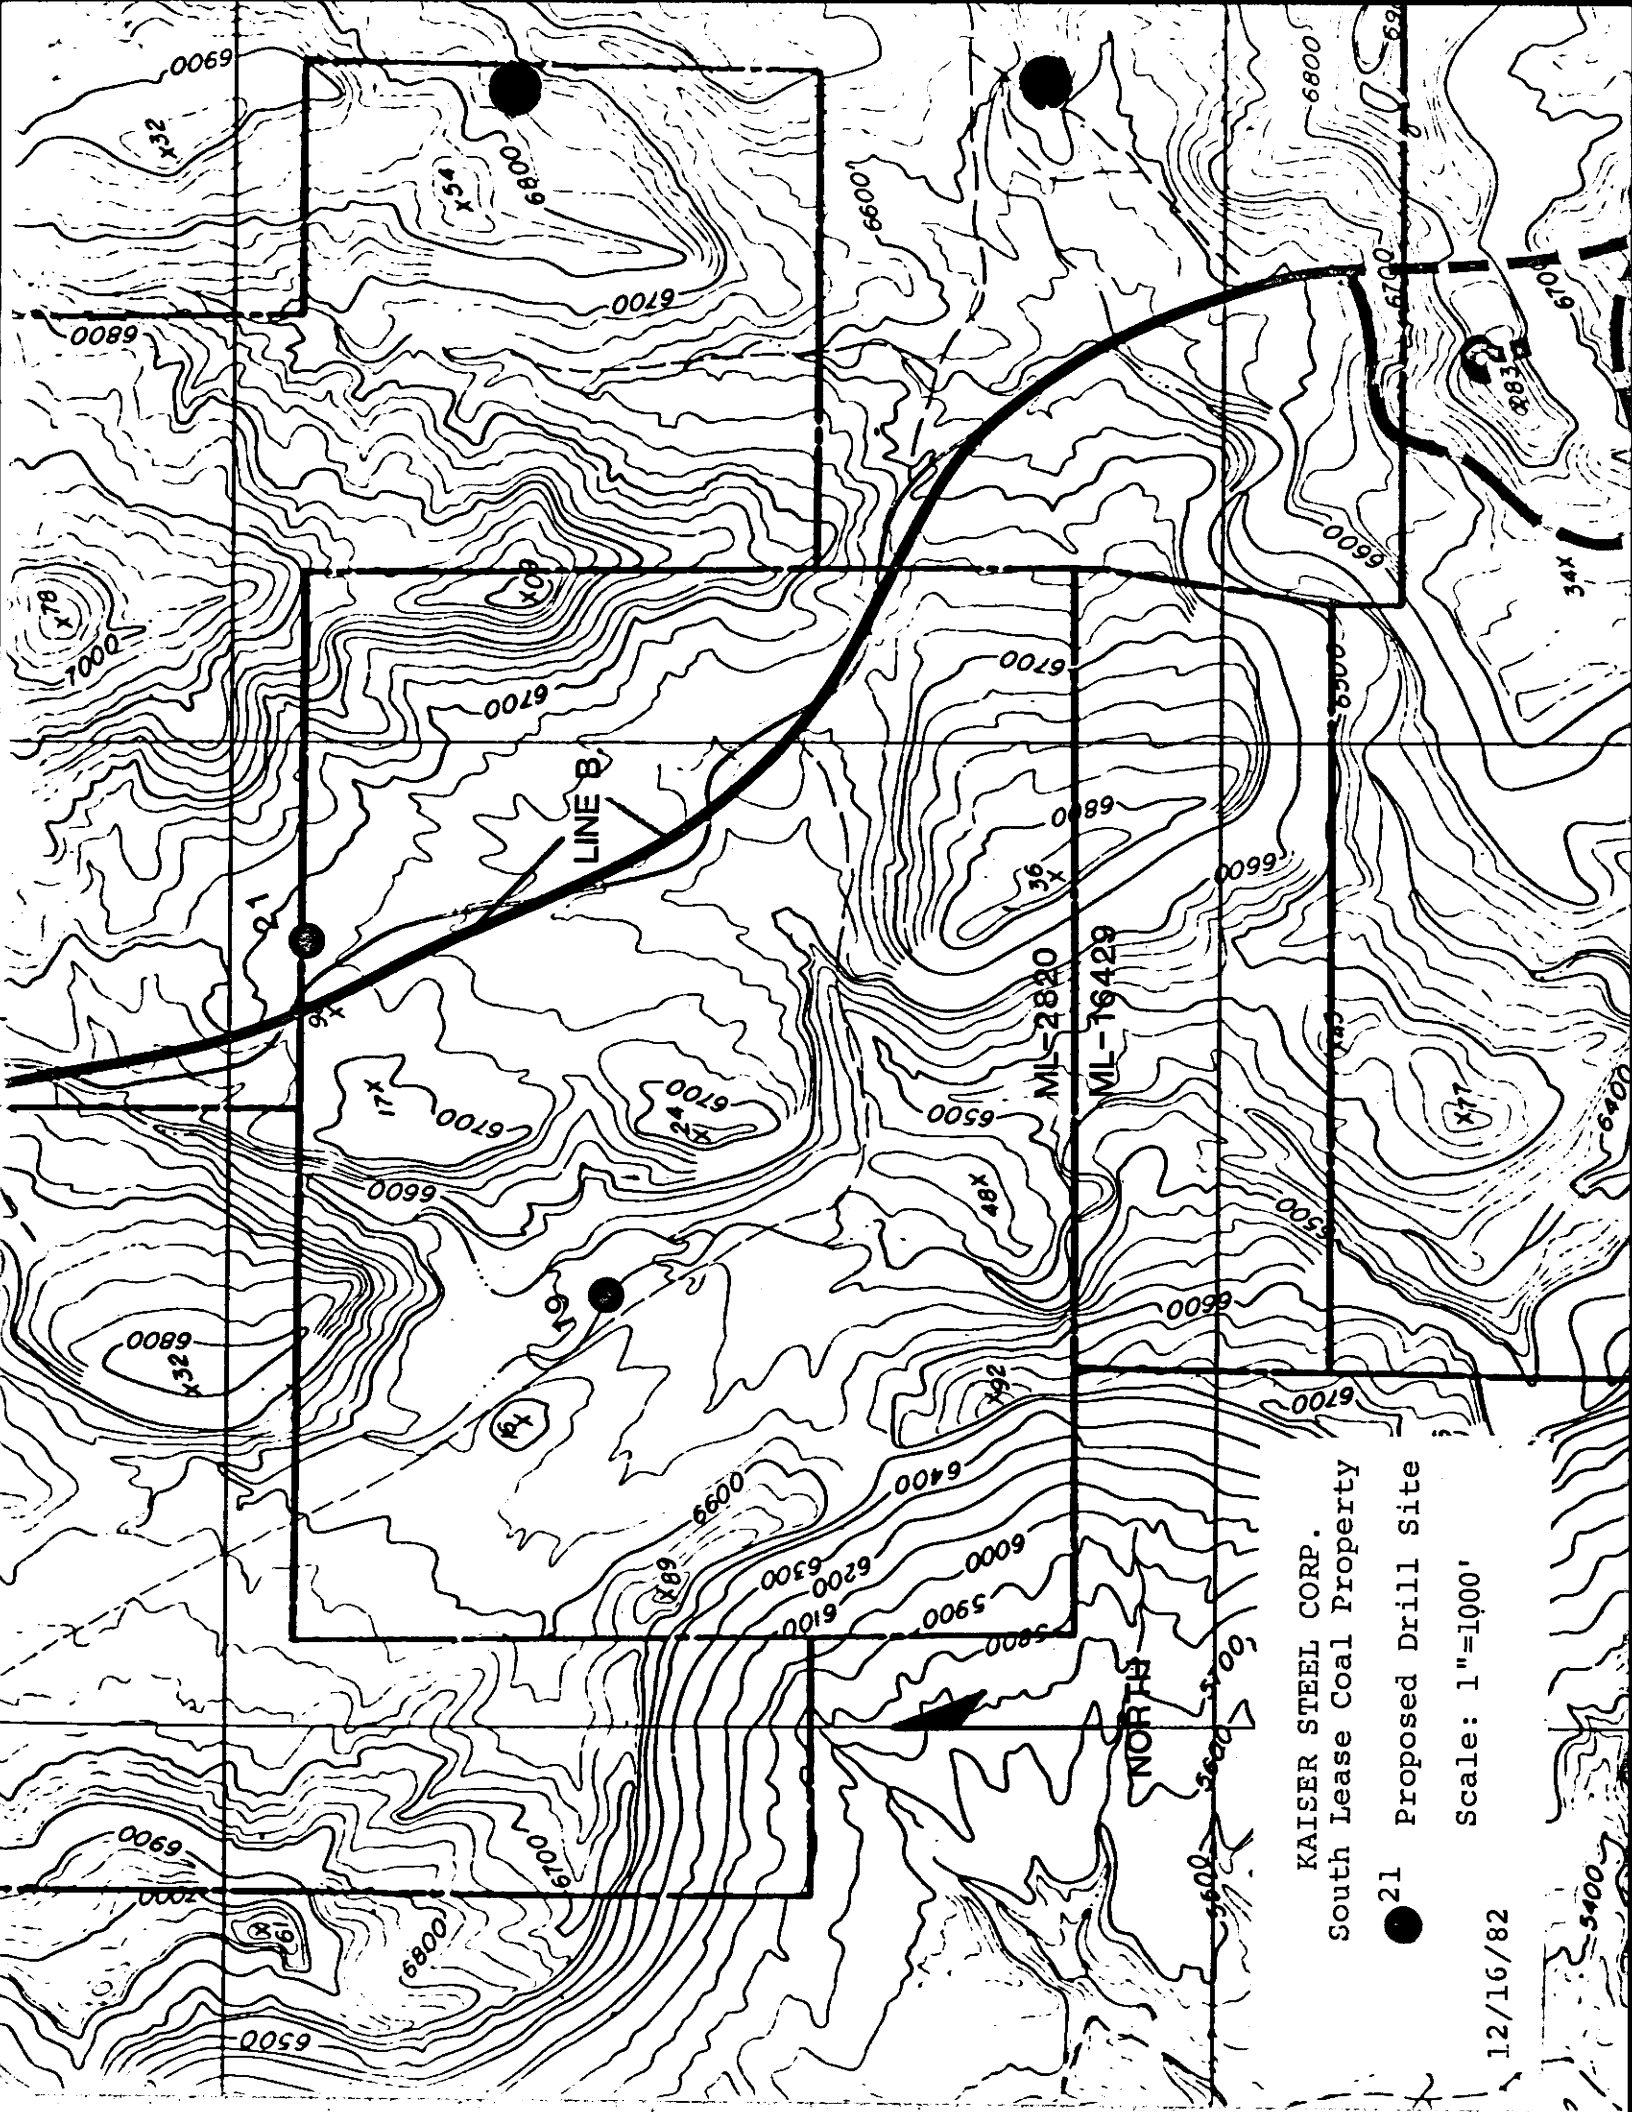

Sincerely yours,

KAISER STEEL CORPORATION

R. L. Wilson, Manager  
Exploration Department
